1. Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier:

Product name: White Fused Alumina (Al₂O₃)
Trade name: White Fused Alumina, Electrocorundum, Corundum, Aluminium Oxide, EKP, EKF, EKR, Korvisit.
REACH-Registration No.: 01-2119529248-35-0023
CAS name: Aluminium oxide
CAS number: 1344-28-1
EU name: Aluminium oxide
EU number: 215-691-6
IUPAC name: oxo(oxoalumanyloxy)alumane
Substance type: mono constituent; inorganic substance

1.2 Relevant identified uses of the substance or mixture and uses advised against:

abrasives, refractory and ceramics applications, bonded and coated abrasives, filter and catalyst carriers, glass, fillers, water treatment, industrial application, lubricant, greases, chemical reagents, feedstock
Counterproposal use: none.

1.3 Details of the supplier of the safety data sheet:

Manufacturer: MOTIM Electrocorundum Ltd.
9200 Mosonmagyaróvár
Hungary
E-mail (competent): andras.toth@motim.hu
Company telephone: +36 96 574-100
Company telefax: +36 96 574-280
Company e-mail: corundum@motim.hu
Company homepage: www.motim.hu

1.4 Emergency telephone number: +36 80 20 11 99 (green number)
National Emergency contact:
Egészségügyi Toxikológiai Tájékoztató Szolgálat (ETTSZ)
1096 Budapest, Nagyvárad Tér 2
Fax: +36 476 1138
E-mail: ettsz@okk.antsz.hu

2. Hazards identification:

Emergency Overview
Critical hazards to human and environment None
2.1 Classification of the substance or mixture:

GHS Classification
Not classified. No H-phrases.

CLP Classification
(Regulation (EC) No 1272/2008)
Not classified as hazardous.

EC Classification
Not classified. No R-phrases.

2.2 Label Elements

Symbol: None
Signal word: No signal word.

Labelling according to Regulation (EC) No 1272/2008: None/No signal word

Labelling according to Directive 67/548/EEC: None/No signal word

Precautionary statements:
P261: Avoid breathing dust.
P280: Wear eye protection.
P285: In case of inadequate ventilation wear respiratory protection.
P305+351+338: IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing.
P302+352: IF ON SKIN: Wash with soap and water.

2.3 Other hazards:
None

3. Composition/information on ingredients:

3.1 Substances:

<tr>
<td>Ingestion</td>
<td>Rinse mouth and give plenty of water to drink. Seek medical advice.</td>
</tr>
</tbody>
</table>

4.2 **Most important symptoms and effects, both acute and delayed:**

- None

4.3 **Indication of any immediate medical attention and special treatment needed:**

- None

5. **Firefighting measures:**

5.1 **Extinguishing media:**

The substance is not inflammable and non-explosive. Fire hazard classification: E. Fire extinguishing method of surrounding areas must be considered. Unsafe extinguishing media: none.

5.2 **Special hazards arising from the substance or mixture:**

- None

5.3 **Advice for firefighters:**

- None

6. **Accidental release measures:**

6.1 **Personal precautions, protective equipment and emergency procedures:**

Avoid dust formation. In case of exposure to high level airborne dust wear a personal respirator in compliance with national legislation. See section 8.

6.2 **Environmental precautions:**

Avoid dispersal of spilled material and runoff. Avoid creating dusty conditions and prevent wind dispersal. Collect material
Identification of the substance: White Fused Alumina (Al₂O₃)
6.3 Methods and material for containment and cleaning up: The material can be taken up mechanically and disposed of observing the local regulations.

6.4 Reference to other sections: See section 2.2 Label elements; 7. Handling and storage; 8. Exposure controls/personal protection; 13. Disposal considerations

7. Handling and storage:
General advice: Handle in accordance with good industrial hygiene and safety practice. Wear suitable personal protective clothing and equipment.

7.1 Precautions for safe handling:
Advice on safe handling: Avoid dust formation. No special handling advice required.
Precautions against fire and explosion: No possible danger of fire and dust explosion.

7.2 Conditions for safe storage, including any incompatibilities:
Condition of storage rooms and tanks: No any special precautions required.
Further information of storage: Store in dry area

7.3 Specific end use(s):
Abrasives, refractory and ceramics applications, bonded and coated abrasives, filter and catalyst carriers, glass, fillers, water treatment, industrial application, lubricant, greases, chemical reagents, feedstock

8. Exposure controls/personal protection:

8.1 Control parameters:
Exposure limit values for White Fused Alumina: Not applicable

Components with specific control parameters as limit values

Occupational exposure limits (air): generally same as for nuisance dust

Hungary
10*/6** mg/m3 (*inhalable dust; ** respirable dust)
25/2000 (IX.30.) EüM-SZCSM regulation for inert dusts

Germany
10*/3** mg/m3 (*inhalable dust; ** respirable dust)

Great Britain
10*/4** mg/m3 (*inhalable dust; ** respirable dust)

United States
Identification of the substance: White Fused Alumina (Al₂O₃)  Ctn.: 2818101100

OSHA 15 mg/m³ (total dust); 5 mg/m³ TWA (respirable fraction)

Some additional EU countries
10 mg/m³ (include national OEL if this exists)

8.2 Exposure controls:

Occupational Exposure Controls: Avoid dust formation. Appropriate local exhaust ventilation recommended.

Personal Protection Equipment
Respiratory protection: In case of insufficient ventilation and exposure to high levels of airborne dust, wear suitable respiratory equipment. Recommended filter type: Filter P2 (acc. To DIN3181)

Hand protection: Wear suitable gloves
Glove material: Textile
Mechanical Harm Category 2,
Protection: Protection level: EN 388 3132
Use: Sieving process, packaging

Glove material: Leather
Mechanical Harm Category 2,
Protection: Protection level: EN 388 3123, 3133
Use: Fusing process, grinding, sieving

Eye protection: Wear safety glasses with side shields (frame goggles).

Skin Protection: No special protective equipment required.

Hygiene measures: Do not eat, drink or smoke when handling. Wash hands after handling and before eating.

Environmental exposure controls: No special exposure controls required.

9. Physical and chemical properties:

9.1 Information on basic physical and chemical properties:

Physical state: solid powder or grains
Colour: white
Odour: odorless

9.2 Other information:

Grain size: 0.01 – 100mm
Odour threshold: -
Initial boiling point and boiling range: 2980 °C at 1013 hPa
Evaporation rate: not applicable
Upper/lower flammability or explosive limits: not applicable
Vapour pressure: 1 hPa at 2158 °C
10. Stability and reactivity:

10.1 Reactivity: The substance is not reactive.

10.2 Chemical stability: The substance is stable under normal conditions.

10.3 Possibility of hazardous reactions: No hazardous reactions known.

10.4 Conditions to avoid: None

10.5 Incompatible materials: None

10.6 Hazardous decomposition products: No hazardous decomposition products known.

11. Toxicological information:

11.1 Information on toxicological effects: Oral uptake < 0.1%, nearly insoluble in lung fluids, most absorbed aluminium oxide is rapidly excreted through urine, main deposit in body is in bone structure.

Acute effects (acute toxicity, irritation and corrosivity): No acute effects

Acute toxicity:
LD50 (oral): > 2000 mg/kg bwt (rats)
LD50 (dermal): No effect
LC50 (inhalation): > 2,3 mg/l(rats)
# Safety Data Sheet

## On voluntary basis

Basically White Fused Alumina/Aluminium Oxide is non-hazardous substance. A MSDS is not mandatory required. This is a data sheet provided on voluntary basis, made according to Regulation (EC) No. 1907/2006 (REACH)

**Identification of the substance:** White Fused Alumina \( (\text{Al}_2\text{O}_3) \)  
**Ctn.:** 2818101100

### Specific symptoms in animal tests:
- **After swallowing:** None
- **After skin contact:** None
- **After inhalation:** None

### Irritation and Corrosive effects:
- **Irritant effects on skin:** No effects
- **Irritant effect on eyes:** No effects

### Sensitisation:
- **After skin contact:** None
- **After inhalation:** None

### Toxicity after repeated intake (sub acute, sub chronic, chronic):

**Sub acute oral Toxicity:** None, Calculated DNEL 6.2 mg/kg bwt/day

**Sub acute inhalation Toxicity:** None, see occupational exposure limits, calculated. DNEL: 15.6 mg/m³ respirable

### Assessment:

**CMR-effects (carcinogenic, mutagenic and reproductive effects)**
- **Carcinogenicity:** None
- **Mutagenicity:** None
- **Reproductive toxicity:** None

**Assessment of CMR properties:** Not classified for CMR

**Product components not listed under IARC/NTP/ACGIH (ingredient carcinogenicity)**

**Practical experience:**
- **Observations relevant for classification:** none
- **Other observations:** none

### 12. Ecological information:

#### 12.1 Toxicity:

Study scientifically unjustified. The substance is highly insoluble in water. The dissolved material ions from the tests substance do not exceed the concentration of metal ions in natural surface waters. As such, it is clear that the Aluminium Oxide/White Fused Alumina mineral is not entering the environment in quality or concentration or under conditions that have or may have an immediate or long-term harmful effect on the environment.

#### 12.2 Persistance and degradability:

- **Persistance:** No relevant for inorganic substance
- **Biological degradability:** Not degradable

#### 12.3 Bioaccumulative potential:

Not applicable.

#### 12.4 Mobility in soil:

Not mobile under normal environmental conditions may be leached from the ground at low pH (< 5.5) or high pH (> 8.5).

---

**Edition:** 4.  
**Date of issue:** 17.12.2012.  
**Page:** 8 of 11
12.5 Results of PBT and vPvB assessment: Not PBT or vPvB substance.

12.6 Other adverse effects:

Final assessment

No acute or chronic classification is appropriate for Al metal massive based on non toxic results below the Ecotoxicity Reference Value (ERV) of tests with aluminium metal, oxide and hydroxide at loadings of 100 mg/L at pH 8-8.5 (maximum solubility of Al expected).

All aluminium in soil or the aquatic environment comes from natural sources. Local sources has an insignificant contribution and impact on environment

13. Disposal considerations:

13.1 Product disposal:

Reuse or recycle when possible. The material can be stored with domestic waste in accordance with the authoritative local regulations. The used packaging should be emptied entirely. Recycling of the used packaging is recommended observing the local regulations.

14. Transport information:

14.1 UN number: UN numbers are four-digit numbers that identify hazardous substances.

UN number: Non hazardous material.

14.2 UN proper shipping name:

GGVS/ADR classification: Non hazardous material.

GGVE/RID classification: Non hazardous material.

Inland waterways:

GGVBisch/ADNR classification: Non hazardous material.

Maritime transport:

GGVSee/IMDG classification: Non hazardous material.

Air transport:

ICAO-TI/IATA classification: Non hazardous material.

14.3 Transport hazard class(es): Non hazardous material.

14.4 Packing group: Non hazardous material.

14.5 Environmental hazards: Non hazardous material.
Identification of the substance: White Fused Alumina (Al₂O₃)

14.6 Special precautions for user: Non hazardous material.

14.7 Transport in bulk according to Annex II. of MARPOL73/78 and the IBC Code: Non hazardous material.

15. Regulatory information

15.1 Safety, health and environmental regulations/legislations specific for the substance or mixture

EU Regulations
Labelling
Regulation (EC) No. 1272/2008

CAS-No.: 1344-28-1
EINECS No.: 215-691-6
Hazard symbols None
Signal word No signal word
Hazard statements None
Precautionary statements None

Hazard determining components for labelling None
Authorisation, TITEL VII Not applicable
Restriction TITEL VII Not applicable
VOC (1993/13/CE) 0%
Water pollution class Not classified

15.2 Chemical safety assessment:

This product is not classified and labelled in accordance within EC directives

16. Other information:

Page 10 of 11
Safety Data Sheet
On voluntary basis

Basically White Fused Alumina/Aluminium Oxide is non-hazardous substance. A MSDS is not mandatory required. This is a data sheet provided on voluntary basis, made according to Regulation (EC) No. 1907/2006 (REACH).

Identification of the substance: White Fused Alumina (Al_2O_3) Ctn.: 2818101100

R-phrases: None

Further information: The current labour hygiene and authoritative regulations should be observed.
The presented information is based on the available literature and the experiences of the manufacturer.
The MSDS includes information exclusively in regards of the safety aspects of the relevant material.

Annex - Exposure Scenarios
As a result of the hazard assessment and PBT/vPvB assessment it is found that SUBSTANCE Aluminium Oxide/White Fused Alumina (CAS# 1344-28-1) does not meet the criteria for classification as hazardous (according the Directives 67/548/EEC and 1272/2008/EC) nor is it considered to be a PBT/vBvB. An exposure assessment and the subsequent stop of risk characterization is not required.

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Abbreviations and acronyms:

ACGIH: American Conference of Governmental Industrial Hygienists
OSHA: Occupational Safety and Health Administration (US)
ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
RID: Règlement international concernant le transport des marchandises dangereuses par chemin de fer (Regulations concerning the International Transport of Dangerous Goods by Rail)
IMDG: International Maritime Code for Dangerous Goods
IATA: International Air Transport Association
IATA-DGR: Dangerous Goods Regulations by the "International Air Transport Association" (IATA)
ICAO: International Civil Aviation Organization
ICAO-TI: Technical Instructions by the "International Civil Aviation Organization" (ICAO)
GHS: Globally Harmonized System of Classification and Labelling of Chemicals
EINECS: European Inventory of Existing Commercial Chemical Substances
CAS: Chemical Abstracts Service (division of the American Chemical Society)
Bwt: bodyweight
