SECTION 1 – CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product
Bite Block

Previous revision date
30-August-2018

Product code
BB40019

Material use
A U-shaped piece of specially designed natural organic wax used in the fabrication of dentures. Used for setting teeth into when taking impressions.

Manufacture’s Name and issuing location
CARMEL GROUP INC.
10220 ARMAND LAVERGNE
MONTRÉAL, QUE. H1H 3N4
PHONE 514-270-5377
FAX : 514-270-2025

SECTION 2 – COMPOSITION / INFORMATION ON INGREDIENTS

Hazardous Ingredients | CAS# | Amount | Exposure Limits
--- | --- | --- | ---
None as defined by OSHA 29 CRF 1910.1200 | | | LD/50 | LC/50

SECTION 3 – HAZARD IDENTIFICATION

Emergency Overview
The product is not expected to present any unusual hazards in proper use (room temperature up to 104°F/40°C). Overheating is considered abnormal usage of the product.

SKIN CONTACT
No danger at room temperature.

EYE CONTACT
Not likely to occur because solid sheets at room temperature.

INHALATION
No fume or aerosol at room temperature.

INGESTION
This material is essentially inert and non-toxic. Regardless it should not be ingested.

Potential Health Effects (NFPA Classification)
- Fire hazard : 1
- Health Hazard : 0
- Reactivity : 0
- Personal Protection : See Section 8

0 = Minimal 1 = Slight hazard 2= Moderate Hazard 3 = Serious Hazard 4 = Severe Hazard

SECTION 4 – FIRST AID MEASURES

EYE CONTACT
Exposure to fumes, vapours or smoke of the thermally degraded product can result in irritation to the eye and direct contact of the molten material will cause eye injury and burns. Should an accident occur, flush eyes with generous amounts of water for at least 15 minutes. **Call a physician to attend to the injury.**

SKIN CONTACT
Exposure to fumes, vapours or smoke of thermally degraded product can result in irritation to skin and direct contact of the molten material will cause injury and burns.
For burns apply running water over the injured area for 15 minutes. Do not attempt to remove any material bonded to skin. **Call a physician to attend to the injury.**

**INHALATION**
Remove individual to a well ventilated area for fresh air and **call a physician to attend to the injury.**

**INGESTION**
Material is not acutely toxic by ingestion. **If material is ingested, do not induce vomiting. Call a physician.**

### ADDITIONAL INFO

#### SECTION 5 – FIRE FIGHTING MEASURES

**Extinguishing Media**
Treat as an oil fire. For small fire use CO₂, dry powder or foam. For large fire use alcohol-type foam, universal-type foam or water fog.

**Special Fire fighting Procedure**
Use water spray cool fire-exposed containers and structures. Do not direct a solid stream of water or foam into burning molten material; this may cause spattering and spread the fire.

**Unusual Fire and Explosion Hazards**
This product will burn if involved in a fire. This product will float upon water, so water spray is not suitable extinguishing agents as it may cause fire to spread.

### SECTION 6 – ACCIDENTAL RELEASE MEASURES

**Small Spills**
Not likely to occur in solid state.

**Large Spills**
Not likely to occur in solid state.

### SECTION 7 – HANDLING AND STORAGE

**Handling procedures**
None special needed.

**Storage precautions**
Normal precaution should be followed in handling and storage. Store in a dry place. Keep out of direct sunlight. Do not store at temperature > 104°F/40°C

### SECTION 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION

**PERSONAL PROTECTION (ONLY IF MOLTEN)**

**Respiratory protection**
No special respiratory protection is normally required.

**Protective gloves**
None are normally required.

**Eye protection**
No special eye protection is normally required.

**Clothing**
No special clothing recommended.

### SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

<table>

### SECTION 10 – STABILITY AND REACTIVITY DATA

**Stability**
Hazardous polymerization

**Incompatibility**
Normally unreactive; however avoid contact with strong oxidizing agent (ex. Peroxides, chlorine), Sunlight or ultraviolet light, heat or high temperature.

**Hazardous decomposition products**
Burning can produce noxious and toxic fumes, and the following combustion products: Oxides of carbon, and small amount of aliphatic hydrocarbon.

### SECTION 11 – TOXICOLOGICAL INFORMATION

**Carcinogenicity**
Not listed, not carcinogenic to date.

**Mutagenicity / Teratogenicity**
Not listed

**SECTION 12 – ECOLOGICAL INFORMATION**

This product is stable in water, and can be mechanically separated from water. The water may be suitable for disposal in a biological waste water treatment plant. Not expected to be acutely toxic to aquatic organisms.

**SECTION 13 – DISPOSAL CONSIDERATION**

Incineration is probably the best mean of disposal. Dispose of in accordance with appropriate Federal, State and local regulation.

**SECTION 14 – TRANSPORT INFORMATION**

<table>
<thead>
<tr>
<th>Classification</th>

<tr>
<td>WHMIS Status</td>
<td>Not a controlled material</td>
</tr>
<tr>
<td>CPR Compliance</td>
<td>Not Known</td>
</tr>
</tbody>
</table>

**SECTION 16 – OTHER INFORMATION**

The information contained in this document is derived from data supplied to Carmel Industries by the manufacturers or distributors of the raw materials combined to form this product. To the best of our knowledge all hazards have been noted for the intended use of the product and, since Carmel Industries cannot control conditions of use, the end user is obliged to determine the conditions permitting safe use of the product.
